5 In a management apparatus on the customer side,
which makes a license agreement of software and/or
a use apparatus that installs the software, a report
information storage means stores report information
that pertains to the license agreement. An elapsed
time measurement means detects an elapse of a
predetermined term, and outputs detection information.
10 A report information output means automatically sends
the report information as use information to a
predetermined destination in response to the detection
information input from the elapsed time measurement
means.
